AFCONA - 5207

Chemical Composition

Hydroxyl functional unsaturated modified carboxylic acid with pigment affinity groups

Product general description

Wetting and dispersing additive for solvent -based architectural and decorative paints, also a very suitable dispersant for printing ink. .

Product properties

AFCONA-5207 is in overall a good conventional wetting and dispersing additive. It is a very economical dispersant with good performance in pigment stabilizing. However, AFCONA -5280 will perform better in all aspects and is more close to our high molecular weight dispersants than AFCONA -5207.

AFCONA – 5207 has below special properties and recommended in below systems:

- 1) AFCONA-5207 is a very good wetting and dispersing agent for air drying alkyds. It can stabilize most of the pigments that commonly used in these systems.
- 2) AFCONA 5207 also proved to be a good dispersing agent for printing ink systems, oil based as well as solvent-based.
- 3) AFCONA 5207 also can be used in thermoplastic acrylics, NC combinations, acid curing systems and baking paints.
- 4) If higher performances are needed, AFCONA
 5280 is recommended. This gives better results in all aspects compared to AFCONA
 5207.

Note: AFCONA -5207 will be cloudy and crystallized at temperatures below 5° C. Heat up until homogeneous. This will not influence the performance.

Product Specification

Non-volatile matter $\geq 96\%(150^{\circ}\text{C}, 0.5\text{h})$

Density $0.94 - 0.96 \text{ g/cm}^3 (20^{\circ}\text{C})$

Amine Value 50 - 70 mgKOH/g

Flash point >100°C

Gardner color Max. 13

Appearance Transparent, Brownish liquid $(25^{\circ}C)$

Addition and dosage

0.5 - 1.5% based on TiO or extenders;

3.0 - 5.0% based on other inorganic pigments;

10 - 20% based on organic pigments.

Incorporation

AFCONA-5207 should be added prior to the pigment dispersion process.

Storage

AFCONA-5207 should be stored in a cool and dry place. When kept in an original unopened container, it will keep up for 5 years from the date of manufacture. The expiry date is indicated on the container.

Packaing

25kg and 190kg non-returnable plastic containers
